Ensono Flex[®]: Optionality from a True Ally

Delivering unmatched IT adaptability and
seamless optionality without penalties

If you know Ensono, you'll know that we often describe ourselves as your ally in business outcomes. We do this because the word "ally" best describes what we aim to be for today's business and technology leaders: a team of independent technology specialists who are truly on your side.

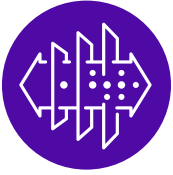

Being a true ally is about being fully committed to, invested in, and willing to make sacrifices for joint success.

In times of uncertainty, your business needs a true ally

Clichéd as it might sound, we truly are living in a time of great change. Geopolitical events, economic uncertainty, huge advancements in technology, and pandemics—anything can happen at any moment and if Covid 19 taught us anything, there are some scenarios

that cannot be planned for. We believe that the best way to prepare for and mitigate this level of risk is by building flexibility into your operations. The ability to evolve, pivot or reprioritize systems and activities quickly will give you a significant competitive advantage when change strikes.

As your ally, Ensono can give you this flexibility.

Introducing Ensono Flex[®]

Our investment in your success

Ensono Flex[®] is our portfolio of commercial options that gives you the flexibility to move in and out of our services without penalty. Our investment to deliver this flexibility is a great example of what it means to be an ally. We've done this because we know that enabling you to make the right decisions for your business is the right decision for our business.

Three solutions for maximum flexibility without penalty

**Ensono Flex[®]
Migration**

Applications & data portability

- **Seamless portability:** Facilitates smooth workload transitions across different environments without financial penalties.
- **Business-driven technology adoption:** Enables the adoption of new technology platforms based purely on business needs, with no commercial constraints.

**Ensono Flex[®]
Cloud Engineering**

Flexible engineering expertise

- **On-demand expertise:** Provides immediate access to cloud engineering expertise to fill skill gaps and accelerate project timelines.
- **Agility and speed:** Enhances organizational agility and reduces time to market by streamlining cloud project delivery.

**Ensono Flex[®]
Cloud Services**

Interchangeable managed services

- **Customizable services:** Offers managed cloud services that are fully customizable and adaptable to evolving business requirements.
- **Scalable support:** Ensures that cloud solutions grow with you, providing right-sized support through each stage of your development.

The Ensono Flex[®] advantage

Ensono Flex[®] gives you freedom to move workloads and applications as needed, with customizable solutions that grow with your business—no penalties. We do what's right for your IT environment, offering flexibility to adapt to changing needs without being trapped in legacy modes.

The Ensono Flex[®] commitment

We promise seamless integration and superior service continuity, with expert support always at your fingertips. Our culture of excellence attracts and retains top engineering talent, ensuring your IT operations remain smooth and efficient.
